EDUCATION

Bachelor of Engineering in Computer Science and Engineering December 2021 - June 2024
G.Pullaiah College of Engineering and Technology, Kurnool
Jawaharlal Nehru University Anantapur, CGPA: 8.5/10.00

Diploma Electrical and Electronics Engineering April 2018 - May 2021
Brindavan Institute Of Technology and Science,Kurnool,Andhra Pradesh 86%

SSC, Class X April 2017 - April 2017
Ravindra EM School for Girls,Kurnool,Andhra Pradesh 85%

SKILLS AND INTERESTS

Interests I am interested in web application development, learning new technologies, UI/UX design skills.
Skills I have knowledge of HTML, CSS, JavaScript, and React.js, along with Node.js,Django,Python,Java

PROJECTS

Soil Forecasting and Plant Disease Detection(team leader) November 2023 - March 2024
Major Project as a part of curriculum

- Developed a user-friendly application that integrates soil fertility prediction, crop recommendation, and plant disease detection.
- Used Machine Learning classifiers like Random Forest, Decision Tree, SVC, Logistic Regression, Gaussian NB, and MLP for soil fertility prediction.
- Implemented Random Forest, Decision Tree, SVC, AdaBoost, and XGBoost models for crop prediction to achieve better accuracy.
- Applied Deep Learning and ML models such as CNN, ANN, SVC, and ResNet50 for plant disease image classification.
- The system identifies whether the soil is Fertile or Not Fertile, recommends the best suitable crop, and classifies plant diseases using images.

Personal Portfolio Website

- Developed a responsive personal portfolio website to showcase skills, projects, and contact information.
- Designed a clean and user-friendly interface using HTML, CSS, and JavaScript.
- Implemented smooth navigation and interactive features for better user experience.
- Ensured mobile and desktop responsiveness for consistent performance across devices.
- Helps recruiters quickly understand my profile and work.

E-commerce(Native)

- Developed a user-friendly e-commerce web application with product listing and shopping cart features.
- Implemented Add to Cart, Remove, and Total Price calculation functionalities.
- Designed a responsive and attractive UI using HTML, CSS, JavaScript / React.
- Focused on smooth navigation and better user experience.
- Demonstrates understanding of frontend development and basic business logic.

Bright Learn (Yuga Yatra)

Bright Learn is a real-time full-stack e-learning web application designed to deliver an interactive and engaging online learning experience. The platform enables users to browse and enroll in courses, receive instant updates, and track their learning progress through a personalized dashboard. It features secure user authentication and an admin panel for real-time course and user management. Integrated real-time functionalities such as live notifications and dynamic content updates enhance user engagement. Built using **React.js, Node.js, Express.js, MongoDB, and Socket.io**, the application ensures scalability, responsiveness, and seamless communication between users and administrators.

INTERNSHIPS

Software Developer Intern-Yuga Yatra (2 months)

Full stack developer Intern-NativeEngineering(2months)

TRAININGS

Machine learning Training -Brain O Vision(3 months)

Python Full stack Development- QSpiders(6 months)

CERTIFICATIONS

Web development and designing certified by oasis

AWS cloud foundations certified

AWS machine learning certified

AWS data Analytics certified

Basic Python certified by Solo learn

EXTRA-CIRRUCULAR AND HOBBIES

- I actively participate in coding practice and self-learning activities related to web development. I enjoy working on mini projects, exploring new technologies, and improving my technical skills. I also take interest in teamwork activities and continuously work on improving my communication and problem-solving abilities.
- Craft and Drawing

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
